

## M2K Activity Seat

Combination lap / shoulder belt restraint system safely accommodates two large passengers. One standard platform fits the same "footprint" as other school bus seats.

### Passenger Benefits

- Enhanced comfort with lateral support
- Widest seating area of any activity seat
- Automotive inspired design
- Seat belt buckles automatically retract into seat back when not in use
- Buckles are always in same location and readily accessible
- Passengers slide easily in / out of seat without buckle interference
- Illuminated buckles (optional) enable passengers to locate buckles in the dark

### Maintenance Benefits

- Entire cushion can be removed / replaced in seconds
- Cushions held securely in place with self-locking latches
- Replacing cushion upholstery is quick and easy
- Simple "J-Clips" secure upholstery material to molded frame, no staples to remove or replace, no tools required
- Buckles protected from contamination by spilled food or beverages
- Easy to clean and service when necessary

### Financial Benefits, Maximize Your Investment

- Seats fold flat to minimize shipping
- Unique "modular platform" design
- Use of interchangeable modular components

### Standard Configuration

- 39" seat, with lap / shoulder belt system
- 3-point seatbelts
- "Anti-submarining" seat design
- Child seat LATCH anchors available on all belted seats
- 42 oz. vinyl upholstery in standard school bus colors
- Spill-proof seat belt buckles
- Zip-On serviceable seat back panels

### Optional Configurations

- 30", 36" and 45" wide seats
- Flip seats
- Fire-resistant Upholstery
- Kevlar upholstery
- "Ballistic" Nylon Upholstery
- Illuminated seat belt buckles
- Emergency seat belt release
